

ST JOSEPH ENGINEERING COLLEGE, MANGALURU

An Autonomous Institution

Department of Computer Applications

Date 14th May 2025

Ref: SJEC/MCA/2025/88

Guidelines for-the preparations of MCA Internship report

- Internship report should be typed neatly on only one side of the paper with 1.5 line spacing on A4 size bond paper. The margins should be: Left 1.25", Right -0.75", Top & Bottom 0.75".
- Before taking the final printout, the approval of the concerned guide(s) is mandatory and suggested corrections, if any, must be incorporated.
- The number of copies to prepared
 - One copy to the college for evaluation
 - One copy to the candidate
- **The pages inside the report shall be in the following order depending on the applicability to the internship:**
 1. Cover page (see the format)
 2. First page (see the format)
 3. Certificate Page (see the format)
 4. Company Certificate
 5. Declaration
 6. Abstract
 7. Table of contents
 8. List of Figures
 9. Acknowledgement
 10. Company Profile
 11. About The Department (if any)
 12. Internship position (not more than two pages)
 13. Internship experience
 14. Conclusion (1 page)
 15. Bibliography
 16. Appendix

Note: The Company Profile part should contain the following.

1. COMPANY PROFILE

1.1 History of the Organization

1.1.1 Objectives

1.1.2 Operations of the Organization

1.2 Major Milestones

1.3 Structure of the Organization

1.4 Services Offered

Note: The “About the department” part should contain the following.

2. ABOUT THE DEPARTMENT

2.1 Specific Functionalities of the Department

2.2 Roles and Responsibilities of Individuals

2.3 Testing

Note: The Internship Experience part should contain the following. (minimum 30 to 50 pages)

4. INTERNSHIP EXPERIENCE

4.1 Skills Developed During the Training Period

4.1.1 Introduction

- ◆ Brief overview of the training period.
- ◆ Mention the purpose of the training and the focus areas.

4.1.2 Skill Set Acquired

- ◆ Technical skills (e.g., coding, design, data analysis).
- ◆ Soft skills (e.g., communication, teamwork, problem-solving).
- ◆ Domain-specific knowledge or expertise.

4.1.3 Impact of These Skills

- ◆ How these skills have contributed to your personal and professional growth.
- ◆ Examples of new things learned and applied during the internship.

4.2 Application of Skills to Tasks

4.2.1 Major Tasks Assigned:

- ◆ Provide a brief description of the key responsibilities or projects you handled during the internship.

4.2.2 Context and Importance:

- ◆ Explain how these tasks fit into the company's broader objectives.

- ◆ Describe how your tasks contributed to solving a specific problem or adding value to the organization.

4.2.3 Team Collaboration:

- ◆ Mention if the project was collaborative and your role in the team (e.g., "Worked as a frontend developer in a team of 5").

4.3 Project Details

4.3.1 Software Requirements Specification (SRS):

- ◆ Outline the SRS document briefly about the project you have assigned during the internship:
- ◆ Functional requirements:
- ◆ List the key features or functionalities (e.g., "The system should allow real-time inventory updates.").
- ◆ Non-functional requirements: Highlight performance, security, or usability expectations.
- ◆ Constraints: Mention any limitations (e.g., "The system should support up to 1,000 concurrent users.").

4.3.2 Existing System

- ◆ Overview of the Existing System
- ◆ Disadvantages of the Existing System

4.3.3 Proposed System

- ◆ Advantages of the Proposed System

4.3.4 Design:

- ◆ System Architecture:
 - Describe the architecture type (e.g., client-server, microservices).
 - Include a simple diagram, such as a flowchart or entity-relationship diagram (ERD), to explain the workflow.

4.3.5 UI/UX Design:

- ◆ Briefly mention wireframes, mockups, or design tools used (e.g., Figma, Adobe XD).
- ◆ Example: "Created a user-friendly dashboard for monitoring inventory levels with visual cues for low stock alerts."

4.3.6 System Architecture

4.3.7 USE CASE Diagram

4.3.8 Class Diagram

4.3.9 Sequence Diagram

4.3.10 Activity Diagram

4.3.11 Implementation:

- ◆ Highlight specific features or modules you worked on.
- ◆ Example:

"Developed the login and authentication module using JWT for secure access."

"Implemented REST APIs for fetching and updating inventory data."

- ◆ Mention coding standards or methodologies followed (e.g., Agile, MVC).

4.3.12 Tools and Technologies Used IMPORTANT (You can elaborate this section along with the proof)

- ◆ List and discuss the tools and frameworks employed in detail:
 - Programming languages (e.g., Python, JavaScript).
 - Frameworks (e.g., React.js, Flask).
 - Tools (e.g., GitHub, Docker, Postman).
 - Testing tools (e.g., Selenium, JUnit).

4.3.13 Modules

4.3.14 Screenshots

4.4 Challenges Faced During Internship

Clarification Regarding Font Types and Sizes:

- The font to be used for the entire Internship Project is Bookman Old Style.
- The font sizes to be followed are outlined below:
 - Chapter Title: Aligned centrally, Font size 16, Bold, Capitalized
 - The Section Headings: Left aligned, Font size 14, Bold, Capitalized
 - The Sub-Section Headings: Left aligned, Font size 12, Bold, Capitalized
 - Any Deeper Level Subsection Headings: Left aligned, Font size 12, Bold, Title Case
 - The body: Aligned as - justified, font size is 12, Regular text, Sentence Case

As for example:

1. TITLE

1.1 SECTION HEADING

1.1.1 SECTION SUB HEADING

1 . 1 . 1 . 1 Any Level Deeper Sub Heading

Body of the text.

- Header & Footer: Font size is 10

Header sample: (Project title is left aligned and Chapter Title is right aligned)

<<Project Title>>

<<Chapter Title>>

Sample Footer: (SJEC is left aligned, Dept. is centre aligned & Page Number is right aligned)

SJEC

Department of Computer Applications

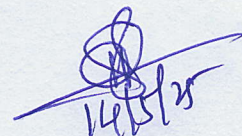

<<Page Number>>

- The Figures and Tables must be numbered chapter wise for e.g.: Fig.2. t: Photograph of the Department, Table 3.1: Profile of the Department etc.
- Bibliography: The references should be numbered serially in the order of their occurrence in the text and their numbers should be indicated within square brackets for e.g. [3]. The section on references should list them in serial order in the following format:
 - For textbooks- A.V. Oppenheim and R.W.Schafer, Digital Signal Processing, Engle wood, N.J., Prentice Hall,3 Edition, 1975.
 - For papers David, Insulation design to combat pollution problem, Proc of IEEE, PAS, Vol 71, Aug 198t, pp t901-1907.
